seed pests like weevils, beetles, moth *etc.*

Talk to Bayer Pest Management Experts

ACTIVE INGREDIENT

Deltamethrin 2.5 % WP

IS-13457

CM/L-3668982

RECOMMENDED USES

K-Obiol is useful against stored grain / seed pests like weevils, beetles, moths, etc. that infest rice and wheat grains. It is also useful for the long duration effective control of adult mosquitoes under public health programs.

MODE OF ACTION

K-Obiol is a non-systemic insecticide which acts on insect by contact and ingestion. In both cases lipophilic nature promotes its action. In the insect body, it affects the nerve transmission by acting on axon. It has knockdown effect.

FEATURES AND BENEFITS

- // Useful for treatment of stacks and application to gunny bags
- // Pronounced knockdown and residual effect on adult mosquitoes
- // Odourless
- // Good chemical stability.
- // Certified with BIS ISI Mark

DOSAGE

For surface treatment of grains and seeds in stacks as well as ceilings and floors in warehouses, mix 120 g of K-Obiol thoroughly in 3 l of water and spray it to cover 100 sq. mt. area.

For residual treatment against mosquitoes, dilute 25-50 gm of K-Obiol in 1.5 to 2.5 l of water and spray or atomizers on walls, ceilings, floors and hiding places of mosquitoes.

ANTIDOTE

Anti histamines, diazepam and other symptomatic treatment.

PACKS: 1 Kg

Stored Grain / Seed Insecticide
